

American Leadership School Roadmap

Determine if
this training is
for you

-Are you an emerging leader from India? Looking to start a career as a leader in America? Looking to improve employee retention, morale, and productivity through effective leadership? To make your job easier with well-managed employees?

-Are you looking for time-effective training with interactive videos, quizzes, worksheets, action plan, and tips for key components of leadership?

-Try out the free training content on the website.

Sign up and
take the
Leadership
Fundamentals
Course

-Sign up for a membership level that works for you, based on how long you intend to use the course and whether you want leadership coaching.

-The course is condensed into the most impactful leadership components, so it can either be completed at leisure, or in a classroom setting led by an instructor.

Practice new
leadership
skills in your
workplace

-Utilize the action plan you develop in the Leadership Fundamentals Course in your workplace.

Ask questions
on the website
discussion
forum page

-Log in to the website and post any current leadership challenges you're experiencing in order to receive guidance and advice from the community.

Watch
additional
leadership
skills videos

-Watch the additional bonus videos outside of the core Leadership Fundamentals Course to further your leadership skills.

Review
progress
against your
action plan

-After several months, review your progress against the action plan developed on the Leadership Training Worksheet

-Consider watching the videos again in order to continue development.

-Continue to post any leadership challenges on the website's discussion forum page that you're looking for advice on.
